

Senior/Medical Release

I understand that if my pet(s) are seniors or have medical conditions. I am aware grooming can cause stress that can exaggerate or expose new problems or even lead to a serious medical event or death in some cases. I understand that there are mental and behavioral changes in senior pets or pets with medical conditions (including but not limited to separation anxiety) and they are groomed for comfort only, not looks.

These grooms are designed to provide comfort to the pet and are function over form. They are done when the pet can no longer cooperate with the grooming process as they once would have.

We will address any problem areas on the pet to prolong their comfort in between grooms. This may mean that certain areas will be shorter than they once were since maintaining the pet in between grooms is difficult.

Since the pet may not be able to undergo a full grooming if and when the pet cannot continue with the groom, the groom will end. We will do our absolute best to complete as much as possible, but we must put the needs of the pet first. The groom may need to be done in stages, and the pet may need to return in order to complete the groom.

I understand that regardless of how much of the groom is completed, the full price of a groom will be due at the end of grooming. Secondary fees may also apply if pet must return in order to complete the groom or if it needs additional help.
